1. The applicant is hereby notified that International Preliminary Examining Authority transmits here with the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**
The applicant must enter the national phase before each elected office by performing certain acts (filing translations and paying national fees) within 30 month(s) from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details in the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

2. Citations and explanations (Rule 70.7)

Reference is made to the following document:

D1: WO 01/74034 (04 October 2001)

Claims 1-13 of the present application claim a wired/wireless Internet-based location information sharing method using a location ID, characterized by selecting a location ID received among wired/wireless Internet terminals or selecting a location ID contained in various documents, searching for the location ID, displaying it on an electronic map, and assigning the location information as a destination, thereby performing a function of navigation.

The followings are comparisons between the claims of the present application and the cited document D1: D1 also describes the similar effect to the effect of the present invention, but does not describe any technical feature to deny the inventive step of the present invention. Therefore, the subject matter of claims 1-13 is considered to involve an inventive step, to be novel, and to be industrially applicable.
